QUALITY, DOCUMENTATION & REGULATORY

Omnipre takes a documentation-first approach to medical-supply sourcing.

Product claims are reviewed at the SKU level rather than applied broadly to an entire category or supplier.

- FDA status is product/SKU specific.
- ISO 13485 applies to the manufacturer/system scope shown in current documentation.
- CE status should be confirmed for the exact applicable product.
- ASTM claims must match the exact product and standard.
- NFPA claims must match the exact product and applicable certification/listing.
- Packaging, country of origin, availability and lead time are verified at quotation.
- Regulatory and certification documentation is available upon request.

PUBLIC CATALOG STANDARD

Product availability, specifications, packaging and regulatory status may vary by manufacturer and SKU. Documentation is available upon request.
